令和3年度東北大学新型コロナウイルス対応特別研究プロジェクト「ポストコロナ社会構築研究推進支援」

パンデミックをめぐる公共政策—ウィズコロナ／アフターコロナの地域社会と法政策

Public Policy to tackle Covid-19: In Search of Resilient and Sustainable Society in Tohoku

R3活動報告/Activity report · 研究成果の概要/Summary of Research Results

(日本語)

公共政策大学院「公共政策ワークショップⅠ」を通じた仙台市・宮城県への政策提言
パンデミックの影響に対して強靱な行政・社会の構築

★ 政策提言の6つの柱

- ① 保健・医療体制の充実
- ② 政策の迅速な実施
- ③ 市民コミュニティの維持
- ④ 行政への理解・信頼の構築
- ⑤ パンデミックにおける事業継続
- ⑥ 長期的な経済活性化

★ 28の機関・団体と3名の大学教員へのヒアリング

現場が直面している具体的な課題の抽出、現場の実践を踏まえた実効的な政策提言

(English)

Policy Proposal to Sendai City and Miyagi Prefecture Developed through “Public Policy Workshop I,”

An Educational Program at Tohoku University Graduate School of Public Policy

Main Objectives: The Development of Local Administrations and Communities Resilient to the Effects of Pandemic

★ 6 Major Domains of Policy Proposals

- ① Enhancement of Health and Medical Infrastructures
- ② Timely Policy Implementations
- ③ Maintaining Community Activities by Citizens
- ④ Building Citizens’ Trust and Understanding for Local Administrations’ Policies
- ⑤ Business Continuity Plans under Pandemic
- ⑥ Long-term Policies to Stimulate Local Economic Development

★ Interviews and Hearings with 28 Organizations and 3 Faculties of Tohoku University Engaged with the National Pandemic Control

The Explorations of Concrete Challenges Faced by the Organizations, and the Development of Effective Policy Proposals Based on the Organizations’ Ongoing Practices

パンデミックをめぐる公共政策—ウィズコロナ／アフターコロナの地域社会と法政策
Public Policy to tackle Covid-19: In Search of Resilient and Sustainable Society in Tohoku

保健・医療体制の充実	看護師のIターン・Uターン促進
	保健師の有事における増員
政策の迅速な実施	新型インフルエンザ等対策行動計画の見直し
	介護事業所に対するメールアドレスを用いた情報配信の原則化
	介護事業所内部における情報の収集・共有・処理に関するガイドラインの策定
市民コミュニティの維持	市民生活における文化活動コミュニティの維持
	高齢者コミュニティのICT交流の推進
行政への信頼・理解の構築	県独自のステージ設定と専門家会議の意見公表
	平時から街・事業者の声を聞く仕組み作り
パンデミックにおける事業継続	簡易版感染症BCPの策定努力義務化と作成支援
	経済支援策における電子申請の普及
	文化観光局内における連帯組織の設置とイベント総合支援
長期的な経済活性化	感染症に強いまちづくりと企業誘致
	前向きな投資促進のためのアドバイザー派遣

パンデミックをめぐる公共政策—ウィズコロナ／アフターコロナの地域社会と法政策
Public Policy to tackle Covid-19: In Search of Resilient and Sustainable Society in Tohoku

Enhancement of Health and Medical Infrastructures	Increasing nurses' work forces by inviting nurses to settle and work in the region
	Increasing public health nurses' workforce in times of emergency
Timely Policy Implementations	Revising the Action Plans for Novel Influenza
	Promoting the use of emails to provide information to nursing care facilities
	Developing guidelines to facilitate information collection, sharing and processing at nursing care facilities
Maintaining Community Activities by Citizens	Maintaining cultural activities in citizens' lives
	Promoting communications with elders with the use of Information and Communication Technologies
Building Citizens' Trust and Understanding for Local Administrations' Policies	Developing stage classifications for infection outbreaks considering unique local situations, and releasing detailed minutes of expert committees
	Constructing platforms to listen to the voices of citizens, businesses and community, regardless the presence or absence of emergency
Business Continuity Plans under Pandemic	Requiring and supporting the development of brief Business Continuity Plans in times of infection outbreaks
	Advancing digital application processes for financial assistance
	Establishing a special taskforce within administrative sections tasked with culture and tourism, and providing comprehensive support for cultural events
Long-term Policies to Stimulate Local Economic Development	Building communities resilient to infection outbreaks to attract businesses
	Employing investment advisers to facilitate active investments in the region
