

Yindi Cai is an Associate Professor at the School of Mechanical Engineering, Dalian University of Technology, and a Master's supervisor. Her educational background includes a Bachelor's degree in Theoretical and Applied Mechanics from Lanzhou University of Technology, a Master's degree in Mechanics from Chongqing University, and a PhD in Nano-Mechanics from Tohoku University, Japan. Her research areas include optical measurement technology, precision measurement technology of mechanical geometrical quantities, CNC machine tool accuracy detection, and machining error compensation. She is currently a member of the High-Precision Manufacturing Equipment Research Laboratory, focusing on teaching, research, engineering technology, and management in the field of intelligent manufacturing.
